

VOLUNTEER FOR THE NEW SPRUCE UP PROGRAM

Calling for volunteers to assist the maintenance staff, primarily in the circle area, but could include other areas *except* the golf course. A labor pool of volunteers will be periodically asked to perform non-priority tasks as a way to: a) keep our community looking great; and, b) give many member residents an opportunity to make a contribution to the community.

This is *not* meant to reduce the number of maintenance staff or to take away any overall responsibility from the maintenance staff.

What kind of jobs will be available? Sweeping, raking, shoveling, weeding, window washing, painting, litter pick-up, table and chair washing, stove deep cleaning, shrub and flower watering and other similar odd jobs.

What about skilled labor? There may be instances where volunteers with a special skill, (i.e., carpentry, sheet-rocking, masonry) could work under the direction of maintenance staff or a volunteer supervisor to accomplish larger projects.

There is a sign-up sheet for volunteers at the office.
